

# Primavera P6 Enterprise - Portfolios

Workshop Reference : EP-03

## Overview

### Requirements:

Each student will require a PC or laptop connected to a Primavera P6 Enterprise system.

### Format:

This workshop covers the portfolio management functionality within the Primavera P6 Web Client. The workshop is delivered as a 1 day hands-on course split into modules, with students completing exercises at the end of each module to reinforce the material just taught.

Workshops are taught by project management professionals with many years hands on experience, in many cases with Oracle Specialist qualifications. All students will receive a printout of the material presented bound into book format with space for notes. At the end of the workshop students will receive a certificate of course completion.

### Customisation:

This workshop can be modified to meet any particular company's requirements if all of the attendees are from the same company. It can also be customised to suit a company's specific business processes. In either case the specific content would need to be subject to discussion and commercial negotiation.

### Cost:

We charge by the day for the trainer, not by the number of students. As the exact cost will vary depending on the location please call our Sales Team free of charge on **0800 242 5204** or by email at **sales@pcf ltd.co.uk** and they will be happy to provide a personalised quotation.
